Registration and Pre-Work 3

All administrators will **separately** complete their registration using this form: [Leadership Week Registration for Administrators 2026 – Fill out form](#). Registration must be completed by May 22nd, 2026 and Pre-Work must be completed by July 31st, 2026.

June 5, 2026: AI Symposium 4

The BCPS Family AI Literacy & Engagement Day introduces families to how AI is used in schools, including tools like Copilot and MagicSchool, while emphasizing safe, responsible, and equitable use. Through a keynote and breakout sessions, parents learn what AI is, how students use it, and how to support learning at home. The day ends with key takeaways, resources, and next steps to promote ongoing family engagement.

June 8-9, 2026: Leadership Days 8

These leadership days equip principals and assistant principals with practical strategies to integrate AI into instruction, data analysis, and school leadership. Through focused tracks using tools like MagicSchool AI, Performance Matters, Microsoft Copilot, and Prisms, leaders learn to enhance teaching quality, drive data-informed decisions, close achievement gaps, and scale professional learning while ensuring responsible use.

Feedback 14

Please scan the QR code on page 14 to provide feedback at the end of the event.

FLORIDA EDUCATIONAL LEADERSHIP STANDARDS

FOCUS: FEL STANDARDS 2, 4, AND 7

Academic Days Objective: To equip educational leaders with the knowledge, skills, and collaborative practices necessary to develop and sustain a shared vision and mission, drive continuous school improvement, and build leadership capacity within their schools, all in service of promoting the academic success and well-being of all students.

FLORIDA DEPARTMENT OF
EDUCATION
fldoe.org

1	Professional and Ethical Norms <i>Effective educational leaders act ethically and according to professional norms to promote the academic success and well-being of all students.</i>
2	Vision and Mission <i>Effective educational leaders collaborate with parents, students and other stakeholders to develop, communicate and enact a shared vision, mission and core values to promote the academic success and well-being of all students.</i>
3	School Operations, Management and Safety <i>Effective educational leaders manage school operations and resources to cultivate a safe school environment and promote the academic success and well-being of all students.</i>
4	Student Learning and Continuous School Improvement <i>Effective educational leaders enable continuous improvement to promote the academic success and well-being of all students.</i>
5	Learning Environment <i>Effective educational leaders cultivate a caring, rigorous and supportive school community that promotes the academic success and well-being of all students.</i>
6	Recruitment and Professional Learning <i>Effective educational leaders build the collective and individual professional capacity of school personnel by creating support systems and offering professional learning to promote the academic success and well-being of all students.</i>
7	Building Leadership Expertise <i>Effective educational leaders cultivate, support and develop other school leaders to promote the academic success and well-being of all students.</i>
8	Meaningful Parent, Family and Community Engagement <i>Effective educational leaders utilize multiple means of reciprocal communication to build relationships and collaborate with parents, families and other stakeholders to promote the academic success and well-being of all students.</i>

Standard 2: Vision and Mission

Effective educational leaders collaborate with parents, students and other stakeholders to develop, communicate and enact a shared vision, mission and core values to promote the academic success and well-being of all students.

Standard 4: Student Learning and Continuous School Improvement

Effective educational leaders enable continuous improvement to promote the academic success and well-being of all students.

Standard 7: Building Leadership Expertise

Effective educational leaders cultivate, support and develop other school leaders to promote the academic success and well-being of all students.

- 2:30 PM** **Wrap-Up**
Moving Forward Together

JUNE 5 SESSIONS

Parent Sessions

Session	Description/Focus of Learning	Room
What is AI & How Students Use It	What exactly is Artificial Intelligence, and how are students using it in today's classrooms? This interactive session breaks down AI in a clear, accessible way, helping both educators and families understand what it is—and what it isn't.	153
Microsoft Reading Coach-ITFs	Discover how Microsoft Reading Coach supports student literacy through personalized, AI-powered reading practice. This session highlights how real-time feedback and engaging stories build fluency, comprehension, and confidence—helping your child grow stronger as a reader, one page at a time.	165
Better Together: Unlocking the Power of Microsoft and MagicSchool & Microsoft Copilot: Supporting Learning	This hands-on session will help educators and leaders quickly understand the role of Microsoft Copilot Premium and Magic School AI in Broward—and how to pair them for maximum impact. Walk away knowing which tool to use, when, and why.	Auditorium
Parent University - Parent Involvement Committee	Participants will explore key trends in parent and community questions across Broward County related to academics, student support, school communication, safety, and emerging technologies such as AI in education. Facilitators will guide discussion on how schools and district leaders are responding to these needs and how families and municipalities can partner more effectively to support student success.	142
Supporting Student Success at Home with Khan Academy	Parents and teachers will explore resources available within Khan Academy, including the Khanmigo for Students course, navigate the parent dashboard, and learn how to monitor student progress. Participants will also discover practical strategies to keep students engaged and learning over the summer. The session emphasizes building strong home-school connections and empowering families to support student success.	128

CTE Sessions

Session	Description/Focus of Learning	Room
IT/Computer Science	Overview of PBL development using AI tools. - Create a PBL lesson plan and rubric (formative assessment and student feedback) - Course Standards - Durable Skills - IC Exam Objectives - Generative AI Foundations Exam Objectives - Core Academic Standards (as applicable) - Case Studies (CPALMS) - Finalize and present PBL lesson - Upload to AI Hub (Use it in Action)	831

Walk away knowing which tool to use, when, and why.	Auditorium
Copilot Teach- ITFs	This session introduces teachers and administrators to AI-powered Microsoft Copilot Teaching tools, with a focus on innovative, instant activity creation. Participants will explore how AI can quickly generate matching activities, fill-in-the-blank tasks, and flashcards to boost student engagement.	137/138
Microsoft Education Tools	TBD	116/117
ESE Strategic Goals & AI Integration	This presentation focuses on building administrators' understanding of how artificial intelligence can be used responsibly to support ESE and Gifted learners. It emphasizes instructional alignment, equity, compliance, and human-centered decision-making to guide effective leadership and implementation.	129/130

Snacks Provided in Media Center at Nova Middle

3:00 PM

Breakout Session 2

4:00 PM

Wrap-Up

JUNE 9 KEYNOTE

**Matt
Jones**

**Chief of Staff for the Georgia
Department of Education**

Matt Jones was one of the longest serving Chief of Staffs in the nation, serving as Chief of Staff for the Georgia Department of Education under State School Superintendent Richard Woods for over a decade. In this role, Matt oversaw day-to-day operations and ensured alignment with the agency's vision and strategic priorities. Matt regularly engaged with district leaders, policymakers, state and federal agencies, as well as departments of education from across the country.

Major areas of focus during his tenure include the agency's response to the pandemic, the development of Georgia's state plans for the Every Student Succeeds Act (ESSA) and the Elementary and Secondary School Emergency Relief (ESSER), coordination of whole child supports to overcome non-academic barriers to learning, strengthening of Career, Technical, and Agricultural Education (CTAE) opportunities, and standing up the Office of Rural Education and Innovation as well as the Office of the Whole Child. Matt has deep expertise in state and federal policies, funding flexibility, and navigating complex organizations to drive transformative change and innovation.

Jones's work is informed by his nearly two decades of experience in education, serving as a classroom teacher, education advocate, and district Technology Director. As Technology Director for a rural school system, he promoted the use of technology to enhance instruction and personalize learning. As a classroom teacher, he instructed high school students in English Language Arts, social studies, computer science, and engineering technology and was recognized as District Teacher of the Year for his innovative and creative teaching style.

Jones has served on numerous state-level task forces – tackling issues such as literacy, academic standards development, testing, workforce development, and teacher burnout. He is a past Georgia Partnership for Excellence in Education Policy Fellow, served as a member of the state advisory committee for the Georgia School Boards Association's Georgia Vision Project, received the Distinguished Service Award by the Georgia Association of Educational Leaders (GAEL) as well as the Distinguished Service Award by State School Superintendent Richard Woods.

During this tenure, Georgia achieved record high graduation rates, historic pay raises for teachers, rising test scores, and the transformation of the Georgia Department of Education into a service and support organization for students, families, and educators. Georgia has been recognized nationally for its work regarding expanding fine arts opportunities, increasing data access and transparency, supporting federal funding flexibility, strengthening teacher pipeline and morale, and establishing some of the first-in-the-nation rural, whole child, and AI teams.

Wrap-Up

JUNE 8 & 9 SESSIONS

Session Name	Session Purpose	Room
Using MagicSchool AI to Accelerate Teaching, Learning, and Equity	This session prepares school leaders to leverage MagicSchool AI as a scalable instructional support tool that enhances lesson quality, differentiation, and intervention—without replacing professional judgment. MagicSchool provides district-aligned, FERPA-compliant AI tools designed specifically for educators, including lesson planning, assessments, differentiation, and intervention supports	132/132A
From Data to Instruction: Using AI Features in Performance Matters	This session equips school leaders to leverage Performance Matters as the district's core assessment and analytics engine, enhanced by PowerBuddy for Assessment (PowerSchool's AI). Performance Matters delivers real-time analytics on assessments, aligns with standards, offers predictive indicators, and supports AI-assisted creation of items and assessments—all features seamlessly integrated within the Performance Matters platform.	116/117 and 129/130
Closing Gaps with AI Copilot Analyst to Equity-Driven School Improvement	This integrative session focuses on how leaders can use Copilot Analyst to intentionally address achievement gaps, gender gaps, and subgroup performance. The emphasis is on systems leadership, not tools alone.	285/286 and 153
Immersive Learning for Engagement & Access Using XR & VR (Prisms) to Transform Math and Science Learning	This session introduces Prisms, a spatial learning platform that uses virtual reality to make math and science learning experiential and accessible. Prisms is designed to close participation and achievement gaps by allowing students to physically experience abstract concepts before formalizing them symbolically.	289/290
Leading AI Enabled Professional Learning Using Magic School AI to Build Teacher Capacity at Scale	This session prepares administrators to use Magic School AI as a professional learning accelerator, enabling consistent, standards-aligned instructional practices across classrooms and content areas. Magic School's purpose built educator tools allow leaders to support lesson design, differentiation, and feedback while preserving teacher autonomy and professional judgment.	281/282 and 118
Instructional Quality & Feedback at Scale: Using MagicSchool AI to Improve Assignments, Feedback, and Rigor	This session prepares administrators to leverage MagicSchool AI as a tool to improve the quality of assignments, rubrics, and feedback, ensuring alignment to standards and cognitive rigor. MagicSchool's assessment and feedback tools help teachers create clear success criteria and actionable feedback efficiently.	137/138
Setting Guardrails, Expectations, and Trust for AI Use	This session equips administrators to lead responsible, ethical, and transparent AI use in their schools. MagicSchool's education-specific safeguards and privacy protections provide a strong foundation, but leadership clarity is essential to ensure consistent practice across classrooms and departments.	212 and 213
Administrative & Operational Use Cases with Microsoft Copilot Prompts	This session equips administrators to use Microsoft 365 Copilot to design task-focused agents that streamline routine administrative work while maintaining appropriate oversight. Leaders will learn how to frame repeatable processes (prep, triage, reporting, and analysis) as safe, auditable workflows—so teams spend less time searching, sorting, and formatting, and more time acting on high-priority information.	142/143 and 159/160A

JUNE 8 & 9 SESSIONS

Session Name	Session Purpose	Room
Microsoft/Elevate Micro-Credential for School Leaders JUNE 8 ONLY	This unified micro-credential experience prepares school leaders to strategically implement, scale, and govern AI across instructional and operational systems using Microsoft Copilot. Aligned to the Elevate Educator Expert pathway and Pathfinder School designation, the course builds administrator capacity to lead instructional innovation, redesign workflows for efficiency, and ensure responsible, ethical AI use. Participants engage in applied, leadership-focused learning that drives schoolwide impact, strengthens teacher capacity, and supports sustainable innovation aligned to district priorities.	831/833
XR Across the Curriculum	This one-hour introductory XR (Extended Reality) workshop provides participants with a hands-on overview of immersive technologies, including virtual, augmented, and mixed reality. Participants will explore applications, experience XR tools firsthand, and gain a foundational understanding of how these technologies can enhance learning, creativity, and engagement across curriculum disciplines.	165A
Leading with Language: How AI Tools Are Transforming Multilingual Support	This session is designed to help school administrators understand how AI tools can strengthen existing systems that support multilingual learners. Participants will explore how tools such as Microsoft Copilot and district-developed agents/prompts can assist leadership teams in improving instructional coherence, interpreting multilingual learner data, and supporting Bilingual/ESOL program oversight—without adding new initiatives or increasing workload.	128 and 131
Leading Effective Implementation of Khan Academy	School site leaders will explore key data reports, understand how to interpret and act on insights, and review Khan Academy course offerings. The session also highlights actionable next steps leaders can take to support teachers, monitor progress, and drive strong, sustainable implementation across their schools.	115
Social Media for School Leaders: Turning Engagement into Enrollment	This session equips school leaders with practical strategies to use social media as a powerful enrollment and engagement tool. Participants will learn how to tell their school's story, highlight programs and successes, and build trust with families through authentic, consistent content that drives inquiries, visits, and enrollment decisions.	835/837
